

Architectural Review

Last Updated Wednesday, 27 June 2007

If you would like to add or make any changes to your property, please read...

In the covenants under the section for Architectural Review, it states that any building/structure and/or changes to your property must be submitted and approved by the board before construction begins.

We need you to submit the following:

Pictures or drawings of all the sides of the structure
A list of materials you will use to build it
Building Permit
Color samples

When we receive your information the Architectural Review Committee will review the pictures/ drawings and plans you have submitted and within thirty (30) days write you back and let you know if your building meets requirements or what needs to be done, so it can be in compliance.

We need the pictures and plans (two copies) mailed to Harvey Crossing Property Owners Association P.O. Box PO Box 2521 Madison, Mississippi 39130 Attn: Architectural Review Committee.

If you have any questions contact Gary Bennett at 601-853-2329 or garyandmichelle98 @yahoo.com. Also, if you need a copy of the by-laws and covenants you can print a copy at www.harveycrossing.net, this is where you will find the building guidelines!
